

JOIN GEOGRAPHY DEPARTMENT

Government Degree College Dhamsi at 16 Miles is now offering **Geography** as a Subject. Students interested to study this subject can apply online. An Adventure of Geography begins with an **enrolment** in this subject.

Geography as a science is unique in bridging social sciences with natural sciences. Geography provides an ideal framework by relating to other fields of knowledge. It is not surprising that those trained as **Geographers** often contribute substantially to the applied management of resources and environments.

Geography informs us about:

- The places and communities in which we live and work
- Our natural environments and the pressures they face
- The interconnectedness of the world and our communities within it
- How and why the world is changing, both globally and locally
- How our individual and societal actions contribute to those changes
- The choices that exist in managing our world for the future
- The importance of location in business and decision-making

Careers in this field:

Digital cartographer	Variety of jobs in United Nations	Teacher (TGT,PGT,Professor etc)	Remote Sensing Analyst	Environment Risk and planning
